AllMyNotes Organizer Portable Publisher's Description AllMyNotes Organizer Portable is a tool that allows you to easily manage your schedule by taking notes in a user-friendly environment. Since installation is not required, you can simply place AllMyNotes Organizer

Portable on a removable device (like a USB flash drive), plug it into any computer and directly run its executable file. What's more important is the fact that your Windows registry keys will not be changed. The interface of the application is clean and intuitive. Upon initialization, you can use the quick start wizard to select the preferred language and skin, pick the major usages that you are interested in (e.g. family records, password and bookmark management, personal), as well as enable AllMyNotes Organizer to automatically run at Windows startup and check for updates online. So, you can create notes and new folders, change icons and colors, mark tasks as completed, set passwords and priority levels, view item information, rename folders and sort folder content by specific criteria (e.g. name, completion,

size). On top of that, you can set a program password, import and export notes, use a search function, view active reminders, use a password generator, fully customize the interface, and more. The program takes up a low-to-moderate amount of system resources, includes a comprehensive help file (too bad it doesn't have snapshots), has a good response time and didn't cause us any difficulties during our tests. We highly recommend AllMyNotes Organizer Portable to all users. KeyMACRO Description: KEYMACRO is a fast, efficient and handy macro editor. KEYMACRO is easy-to-use.
